- Make your **code** cleaner than **anything** else in the **World**

① - Distribute **Functions declaration**

1.h

```
class B {  
    void a();  
}
```

② - Function's **Functionality**

2.cpp

```
#include "1"  
B::a() {  
    func;  
}
```

3 - Main Program  
.cpp

```
#include "1"  
B obj;  
obj.a
```
