Structures Constructors

Sunday, 1 August 2021   10:16 AM

Define Combination of data types

```
struct    abc {
    int         a
    double      b
    char        c

}
```

```
{
    a
    b
    c }
```

```
abc   object_abc:

object.a = 20;
```

Constructors

```
struct   a {
→ ✗ a() { print (abc) }
→   a (int b) {print (ab)}

}
```

```
a   obj;
→ a   obj( 3 );
```
